

# **The 16th International Conference on Complex and Combined Environmental Factors**

## **ICCEF 2018**

**Takasaki.Gunma. Japan(Gunma Paz University)**  
**Headquarters Finland, Tampere**

**Chair.Masaaki Takahashi (Gunma Paz University)**  
**2018/9/22・23 (sat・sun)**

### **Theme:Feasibility and Well-being**

Experts and researchers involved in health, medical care, welfare, ergonomics, human science, sports science and public health are gathering from all over the world based on Scandinavia and Finland, and experts from other fields are exchanged in their own field We aimed to grasp the hint of a new solution by pulling out knowledge, exchanging people, assembling (complex combination effect), sharing the subjects that would be difficult only in the specialized area, after a quarter of a century I am an academic society (NPO) headquartered in Finland. This time it was held in Japan for the first time in ten years. Applicants can apply regardless of members of academic societies. We look forward to your participation

**Keynote lecture 1** (with interpreter) Japanese experts in health care and welfare education that supports Feasibility and Well-being

Experience knowledge that I want to keep from experience (national subject tentative title)

**Masaaki Takahashi (Gunma Paz University)**

**Keynote lecture 2** (with interpreter) Finland's health and welfare experts to support Feasibility and Well-being

Experience knowledge that I would like to keep from the experience of the network from the dawn to today (national title tentative)

**Olavi Maninnen (Former University of Tampere)**

General theme session (planned)

- 1 Implementation of Well-Being
- 2 Health issues and complex environmental factors
